

PRESS RELEASE

Zinwave appoints new Chairman

Cambridge, UK, 10th October 2008 – Zinwave, a leading provider of Active DAS (Distributed Antenna Systems) for in-building wireless coverage, has announced that Dr. John Forrest has been appointed as non-executive Chairman of the board, as of 27th August 2008.

After a distinguished academic career in the UK and US, John joined Marconi Defence Systems as Technical Director and later became Director of Engineering at the Independent Broadcasting Authority. From this engineering team he formed the communications company NTL, becoming its first Chief Executive and later its Deputy Chairman.

John was a Director of 3i plc and has held appointments as Chairman or Director of many technology sector companies and has served on numerous government and public committees. He is former Senior Vice President of the Royal Academy of Engineering. He was awarded the CBE in H.M. the Queen's Jubilee Honours and the Chevalier de L'Ordre des Arts et des Lettres by the French Government.

Jonathan Paget, CEO of Zinwave, commented, "We are very pleased to have been able to attract John to lead our board through this very exciting phase of company growth. His experience at all levels will be of great value to us but particularly his involvement with the wireless sector and with in-building coverage solutions.

-Ends-

About Zinwave

Zinwave is a company at the forefront of wireless technology development, pioneering a new approach to in-building unified wireless infrastructure. With unique patented technologies drawn from world-leading research groups at Cambridge University and University College London, Zinwave was founded in 2002 and is today operated by a management team with extensive experience of international telecoms markets. The company has developed a Wideband Distributed Antenna System that addresses the challenges of providing continuous radio coverage inside buildings for simultaneous services with the same infrastructure and components.
