

FOR IMMEDIATE RELEASE

Zinwave partners with Pacific Wave to bring the Next Generation in-building wireless coverage solution to Asia

Zinwave continues to gain momentum, extending global market coverage

Cambridge, UK – Zinwave Ltd, a pioneer and leader in next-generation in-building cellular and wireless technology, today announces that it has partnered with Pacific Wave Pte Ltd, one of Asia’s leading wireless product distributors. With bases in Singapore and Indonesia, Pacific Wave further strengthens Zinwave’s presence in Asia. This partnership is driven by significant demand in the Asian markets for Zinwave’s unique active Distributed Antenna System (DAS).

Zinwave produces the Zinwave 3000 true wideband active DAS which uniquely provides in-building wireless coverage for any service and wireless technology between 136MHz-2700MHz, irrespective of protocol or modulation scheme.. It offers a flexible, scalable solution which adapts easily to future changes in services without the need for hardware upgrades.

“Zinwave is the first wideband active DAS provider in the world to gain LTE approval from the FCC ” said Colin Abrey, VP of Sales & Marketing, Zinwave. “Our customers recognise just how far ahead of the competition our solution really is. As demand for our Zinwave 3000 active DAS in Asia has grown we’ve needed to think seriously about who we engage with. Pacific Wave’s enormous success in the Asian marketplace and its position as a well respected distributor, place Zinwave in a strong position to deliver its leading active DAS solutions to more of the Asian market. We look forward to a long and prosperous relationship”

“Asia features some of the fastest growing economies in the world, and the demand for in-building wireless services is exploding,” added Andrew Herman, Pacific Wave. “Furthermore, Asian networks have shown themselves to be amongst the most forward-thinking in the world. There is huge potential here for a truly future-proofed

in-building wireless solution like Zinwave's. The system can be easily planned, installed and maintained with minimum disruption and cost. This product perfectly compliments Pacific Wave's comprehensive range of wireless infrastructure offerings."

Zinwave's worldwide expansion continues to gather pace, with many distributors eager to resell the world's most versatile in-building wireless system. Zinwave has recently announced a distribution agreement with the highly-acclaimed US-based distributor Hutton. It has also recently announced a partnership with Crossover, the leading distributor of wireless solutions in Canada.

Furthermore, Zinwave will soon announce the completion of additional partnerships in the Middle East, as well as large-scale in-building wireless projects in Asia.

About Zinwave

Zinwave is at the forefront of wireless technology development, pioneering a new approach to in-building unified wireless infrastructure. With unique patented technologies drawn from world-leading research groups at Cambridge University and University College London, Zinwave is today operated by a management team with extensive experience in all parts of the wireless industry and international telecoms markets. The company has developed a Wideband Distributed Antenna System that addresses the challenges of providing ubiquitous wireless coverage inside buildings for multiple simultaneous services with the same infrastructure and components.
